Aim:

To ensure that each child is accepted as a unique individual, living in a unique environment. To recognise that we all come from diverse backgrounds, which reflect different values and opinions. To create an environment that supports, reflects and promotes equitable and inclusive behaviours and practices and respects individual groups of people.

Explanation:

All children and families have the right to be treated with fairness and equity, have the same opportunities for participation and decision-making, and to be accepted as valued members of the community. The Code of Ethics, developed by Early Childhood Australia, underpins the core values, beliefs and practices within Country Kids Club.

Australia is a multicultural society where different ethnic groups coexist harmoniously, free to maintain and practice their language, religious beliefs and social customs, recognising that all are equal as individuals. We recognise the diversity of the Australian culture and will help to foster an awareness and acceptance of all children, through the thoughtful integration of a variety of culturally diverse and anti-biased activities in the program.

Children who experience relationships that are built on respect, fairness, acceptance, co-operation and empathy are given the opportunity to develop these qualities themselves. Quality interactions increase their knowledge and understanding of themselves and each other as unique individuals.

Definition:

Diversity

"The concept of diversity encompasses acceptance and respect. It means understanding that each individual is unique and recognising our individual differences. These can be along the dimensions of race, ethnicity, gender, sexual orientation, socio-economic status, age, physical abilities, religious beliefs, political beliefs, or other ideologies. It is the exploration of these differences in a safe, positive and nurturing environment. It is about understanding each other and moving beyond simple tolerance to embracing and celebrating the rich dimensions of diversity contained within each individual."
