Child Restraints

- It is important to choose appropriate Child Restraints and practices for use in your motor vehicle. The KidSafe NSW Website has 2 great resources “Seat Me Safely”, and “Keeping children as safe as possible when travelling in motor vehicles” that can be used to help you determine which is the best Child Restraint to use for each child
 - www.kidsafensw.org/road-safety/child-restraints/seat-me-safely/
 - <https://www.kidsafensw.org/imagesDB/wysiwyg/DetailedConsumerGuide.pdf>
- It is the law in NSW that you must use child restraints for children under 7 who ride in your car
- It is recommended that children aged from 7 to 16 years old who are too small to be restrained by a seatbelt properly adjusted and fastened use an approved booster seat
- All child restraints that you use for your FDC Business should:
 - Be less than 10 years old
 - Have an instruction manual/booklet stored in a safe place for easy access and reference
 - Have evidence of correct fitting stored in the vehicle
- Always choose, correctly fit and use the restraint most appropriate for the child’s size and age
- When fitting a child restraint, it is the Educators responsibility to follow the manufacturers instructions, as a restraint which is not fitted or used correctly significantly reduces the safety protection provided by the restraint

- Use a restraint which has been approved to the Australian Standards - AS/NZS 1754:2010
- When seating a child in your car it is the Educators responsibility to follow the manufacturers instructions when securing the child with the harness or seat belt, as a restraint which is not fitted or used correctly significantly reduces the safety protection provided by the restraint
- Always place children in an appropriate child restraint for every single journey
- Do not move children to the next restraint until they have outgrown it
- Second hand restraints should be used with caution (see Using Your Car Tipsheet for more information)

Other Vehicles at a Family Day Care Home or Venue:

- All moving motor vehicles, including cars, motorbikes, quad bikes, tractors and ride-on mowers should be secured so that young children and the vehicle cannot come into contact
- All motor vehicles as listed above and parked on the property, should be locked when not in use and the keys stored in a secure location
- Children must not be left unattended in a motor vehicle at any time
- No child under 16 years of age should ride or be carried as a passenger on quad bikes of any size

Continual Monitoring and Improvement:

Continual improvement and monitoring will occur in the following ways:

- Incidental and planned consultation with families
- Co-ordination Unit Staff accessing current relevant information
- Co-ordination Unit Staff and Educators accessing current and relevant training
- Internal evaluation of incidences and the improvement of systems
