

## Policy Statement

This policy acts to ensure that:

- Children are protected from harm and hazard at each service where a Sole Educator is providing education and care

## Explanation

Education and Care will be provided by a Sole Educator in an Outside School Hours Care Service where there are 10 or less enrolments in attendance at one time.

This policy outlines the strategies implemented by Country Children's Early Learning to ensure adherence to the Education and Care National Law and Education and Care Services National Regulations in relation to the protection of children and Educators.

## Goals

- To ensure clear procedures are in place to support the Educator and children at a Sole Educator Service if the Educator becomes unwell, is injured or requires medical attention

## Strategies

### Sole Educator Risk Assessment

- The number of Educators at each Service for each session is determined by an assessment of each Service including location, potential hazards, Educator skills and knowledge, each child's care needs, medical conditions
- Daily Risk Assessments are completed to ensure a safe indoor and outdoor environment in the case of an unforeseeable situation where children may be left alone
- The Educator is to ensure they have the CKC mobile phone charged and with them at all times
- The Educator is to ensure that the First Aid Kit is always accessible, so they do not leave children on their own
- Children to be educated during emergency drills on how to:
  - Call 000
  - Assisting an injured educator
  - Assisting an educator with another injured child
- Maintain contact numbers for the Approved Provider and Nominated Supervisor on the service phone in case of an emergency
